5. Workload
6. Course Components
7. Policies
8. Support Resources

1. Purpose

This guide outlines the course policies and expectations for students enrolled at THU. It is essential that all students read and understand these guidelines to ensure a successful learning experience.

Additionally, this guide can help students prepare as professionals in the workplace by:

- **Understanding** task instructions clearly
- **Executing** the task precisely
- **Creating** a high-quality output

2. Prerequisites (1/2)

Before the course begins, ensure you have the following accounts, software, and technical support resources set up.

Accounts

- THU official **email** account (xyz@thu.edu.tw) tmail.thu.edu.tw
- THU official **MS Teams** account (xyz@**tdrive**.thu.edu.tw) for accessing any MS Apps login.microsoftonline.com
- Be aware of the **difference between THU official email and MS Teams** account. Official email account won't be able to access MS Teams. Only **official MS Teams** account can access MS Teams.

2. Prerequisites (2/2)

Software & Apps

- iLearn App (Tronclass) ilearn.thu.edu.tw
 - MS Word, PowerPoint, Teams, OneNote
 - Google Chrome
 - THU AI Apps: 深度学习, 机器学习, 数据挖掘, 自然语言处理, 计算机视觉
- **Python Labs:** Python, VS Code, GitHub
 - **R Labs:** R, RStudio, GitHub

3. Communication (1/2)

Mastering professional email communication helps you make a positive impression on everyone you work with. Each email you write is an opportunity to show **respect**, **clarity**, and **professionalism**.

- THU's official email will be used for all course-related communication. (e.g., xyz@thu.edu.tw)
- To send course-related emails to the instructor, log in to tmail.thu.edu.tw and send your email from there. This ensures emails are not filtered as spam.
- Emails sent during work hours (9AM-5PM) will be responded to within a reasonable time.
- Course-related email should include course name, your name, student ID, department, and a clear subject line.

3. Communication (2/2)

Email Example

Subject: Question About Assignment 2 Deadline - Introduction to Data Science

Dear Professor [Name],

Course: Introduction to Data Science (CS 301)

Student Name: Sarah Johnson

Student ID: 2023456789

Department: Computer Science

I am writing to inquire about the deadline for Assignment 2, which is currently scheduled for November 15th.

Best regards,
Sarah Johnson

Tip: Additional communication methods may be explored based on specific requirements.

4. Attendance

Attending class regularly develops the **professional work ethic** that employers value most in the workplace. This habit shows you are **responsible and reliable**, qualities essential for career success.

- Attendance at all classes is mandatory for students.
- Students must check in using the iLearn App for each class during the 'check-in period.'
- Make sure you are connected to THU Wi-Fi and that GPS is turned on in your smartphone.
- If any error occurs during check-in, log out of the iLearn APP and log back in, then attempt check-in again. If the error persists, contact THU technical support.
- For technical inquiries, contact 04-23590121# 30211, ilearn@thu.edu.tw

5. Workload

To succeed in this course, it is important to understand the expected workload. Based on past experiences, students typically spend **one to two hours per week**, outside of class time, reviewing course materials and preparing for the next class.

6. Course Components: Assignments (1/2)

Every assignment you complete is a step toward becoming the professional you want to be. Embrace each task as a **chance** to grow your skills and prove to yourself that you can **achieve excellence through dedication and effort**.

- The assignment must be your own.
- Use the template provided by the instructor.
- Copying the contents directly from AI tools is not allowed for writing assignments.
- Homework is due by **5 PM on the Friday** of the same week it's announced.
- Convert a written assignment to **PDF** format.
- All assignment files must follow standard naming convention: `StudentID_Name_Keyword.pdf`

6. Course Components: Assignments (2/2)

- Example: S123456_Jane_Workflow.pdf
- For a video assignment:
 1. Upload the video to your **Google Drive**.
 2. Submit a link to the video to iLearn.
- To avoid submission errors, submit your work at least one hour before the deadline.
- For grammar and spelling checks, use tools like Grammarly or Microsoft Editor.
- Submit assignments by the deadline. Contact the instructor before the due date if you need to discuss alternative arrangements.

6. Course Components: Labs

In-class labs are where learning comes alive, where you transform knowledge into real skills you can use in your career.

- To follow the lecture properly, change the computer's default language to English.
- Ensure you can use MS Teams, MS OneNote before the lab session.
- Listen carefully to the instructor's explanation before starting the lab.
- Complete the lab within the allotted time.
- Save your work frequently to avoid data loss.
- Double-check your work before submission.
- Submit the lab assignment to iLearn before deadline.

6. Course Components: Exams (1/2)

Every exam is a chance to prove to yourself how much you've learned and how capable you are.

- If you arrive late, you will not be permitted to take the exam.
- Each exam is **50 minutes** long.
- Mid-term exam: 20 multiple-choice questions.
- Final exam: 20 multiple-choice questions or may be substituted by a final presentation.
- To take an exam, use the iLearn on a computer.
- If the exam is held in a computer lab, use the computer provided. Personal laptops are not allowed.

6. Course Components: Exams (2/2)

- During the exam, all personal belongings (bags, phones, smartwatches, etc.) must be placed at the front of the classroom.
- No talking or any form of communication is allowed during the exam.
- Once you finished the exam, submit it on iLearn and leave the classroom quietly.
- The type of exam is subject to change depending on the progress of the course.

6. Course Components: Presentations (1/3)

This course incorporates **professional-level presentation practice** modeled after TED Talks.

- The use of devices such as PCs, phones, and tablets is prohibited during the presentation.
- Presentations should last between **3 to 5 minutes** depending on the class size.
- The 'final' slide file (e.g., PowerPoint) should be turned in no later than **5 PM on the Friday** preceding the presentation week.
- Presentation topics will be assigned by the instructor.
- Notes or scripts are not allowed during the presentation.

6. Course Components: Presentations (2/3)

Evaluation Criteria

Criterion	Weight
Content	40%
Delivery	30%
Body Language	20%
Time Management	10%

The oral presentation format largely follows TED's style: **no scripts, no slides**.

6. Course Components: Presentations (3/3)

Reference TED Talks

Leadership & Management

- Simon Sinek: Why good leaders make you feel safe
- Jim Donovan: The Making of an Investment Banker
- Larry McEnerney: The Craft of Writing Effectively

Communication & Public Speaking

- Conor Neill: How to Start a Speech
- Matt Abrahams: Tips for Non-Native Speakers
- Vinh Giang: Improve how you speak

7. Policies: Academic Integrity

- Any academic misconduct will be reported to your department and the university.
- For details about academic misconduct, refer to THU Academic Regulations.
- Article 33:
 - Being absent from the exam without an approved leave: the results shall be counted as **zero**.
 - Cheating on midterm, final, or graduation exams: the semester results shall be counted as **zero**.

7. Policies: AI Usage (1/2)

AI technologies can be powerful tools to **enhance your learning** and **productivity**. However, it is crucial to use them **ethically** and **responsibly** to maintain academic integrity.

- AI tools may be used for brainstorming and research, but **all written work must be in your own words**.
- If any AI systems are used in your work, specify the name of the AI system, its purpose, and its output as detailed as possible to avoid plagiarism.

7. Policies: AI Usage (2/2)

Example: Using AI for brainstorming

AI System Used: ChatGPT-4

Purpose: Generate initial ideas for marketing strategies

Output: The AI suggested five marketing approaches: social media campaigns, email marketing, influencer partnerships, content marketing, and SEO optimization. I selected content marketing and developed my own strategy based on course concepts.

8. Support Resources

Technical Support

- THU Technical Support: lis.thu.edu.tw
- THU Helpdesk: helpdesk.thu.edu.tw

Office Hours

- Office hours will be announced in class.
- Appointments can be made with prior arrangement.
